WAREHOUSING & *LOGISTICS*

MAXIMISING OPERATIONAL EFFICIENCY AND NETWORK SECURITY WITH INTEGRATED CONNECTIVITY SOLUTIONS

The operations within logistics, warehousing, and retail sectors are characterised by relentless pace. Achieving optimal efficiency in **“just-in-time”** delivery, precision in **inventory management**, and smooth **order fulfilment** critically depends on the underlying network infrastructure. Inadequate connectivity, Wi-Fi blind spots, outdated systems, and persistent cyber threats directly lead to significant reductions in productivity, inflated operational expenditures, and a decline in client satisfaction.

At KHIPU, we understand these intricate challenges. Our extensive track record in architecting, implementing, and managing resilient network and security solutions within the most **demanding operational environments** positions us uniquely to redefine your operational capabilities.

WHY KHIPU SERVICES SHOULD MATTER TO YOU...

This document outlines KHIPU's comprehensive approach to delivering high-performance wireless and networking solutions in mission critical and often-complex environments.

Complemented by advanced Network Operations Centre (NOC) and Security Operations Centre (SOC) services, specifically tailored to the unique requirements of the logistics, warehousing, and retail industries, we ensure your business is always connected, secure, and ready for the future.

THE OPERATIONAL IMPERATIVE: MITIGATING CONNECTIVITY & SECURITY RISKS

Logistics, warehousing, and large retail facilities face distinct challenges:

CONNECTIVITY GAPS

Extensive areas and dense storage create Wi-Fi dead zones, halting productivity and causing delays.

UPTIME CRITICALITY

Any network interruption halts picking, packing, and shipping, leading to significant financial and delivery losses.

CYBER THREATS

This sector is a prime target for ransomware and data breaches, threatening sensitive operational data.

SCALABILITY DEMANDS

Networks must swiftly adapt to new IoT devices, changing layouts, and increased automation.

KHIPU'S INTEGRATED APPROACH PERFORMANCE, VISIBILITY, PROTECTION

KHIPU transforms your network into a strategic asset through a meticulous, end-to-end process. We don't just solve problems; we build resilient, high-performance digital ecosystems ready for tomorrow's demands.

ADVANCED WI-FI & NETWORK INFRASTRUCTURES

Bespoke Wi-Fi and wired networks designed for complex environments, ensuring constant, high-performance connectivity.

CYBERSECURITY SOLUTIONS & SERVICES

All the essential elements for your organisation to remain cyber secure, including: consulting, products, managed services, MDR Services via our 24x7 SOC and NOC, professional services and training.

PROACTIVE 24x7x365 NOC SERVICES

24x7 monitoring to guarantee maximum uptime, minimal latency, and sustained efficiency for "just-in-time" operations.

VIGILANT 24x7x365 SOC SERVICES

Your frontline defence, delivering continuous threat monitoring, detection and rapid incident response to safeguard your critical systems.

A PROVEN 4-STAGE ENGAGEMENT FRAMEWORK

We follow a structured, proven process to ensure every solution is perfectly tailored to your unique requirements, from initial analysis to ongoing managed support.

SURVEY & ASSESSMENT

In-depth analysis of your existing infrastructure to identify vulnerabilities and performance.

NETWORK DESIGN

A tailored solution underpinned by professional site surveys to ensure both capacity & resilience.

DELIVERY & INSTALLATION

Efficient installation planned and executed to minimise downtime and avoid any potential disruption.

MANAGED SERVICE & SUPPORT

Comprehensive ongoing support, freeing your IT team to focus on strategic growth initiatives.

DRIVING MEASURABLE REAL-WORLD ADVANTAGES

Partnering with KHIPU delivers clear, impactful results that strengthen your bottom line and future-proof your operations.

Our solutions are designed to enhance efficiency, reduce costs, and fortify your security posture, turning your network into a competitive advantage.
